

DOLORES WATERSHED AND RESILIENT FOREST (DWARF) COLLABORATIVE

Thursday, April 13, 2017, 1:30pm to 3:30pm

Dolores Water Conservancy District, 60 S. Cactus St., Cortez

Expected Outcomes:

- Basic understanding of emergency response capabilities and plans for the Dolores watershed and river corridor
- Glean concepts from the monitoring approaches of the San Juan Headwaters Forest Health Partnership to inform a monitoring strategy for DWaRF
- Decision on a service contract to develop messaging and an outreach plan
- Agreement on next steps for group and coordinator
