

DWRF Collaborative Ponderosa Pine Forestry 101 Tour

MAY 16th

NOON – 3:00PM

RSVP to 970-739-7899 or show up

BRING A LUNCH, SUNSCREEN, WATER BOTTLE, AND YOUR SPIRIT OF ADVENTURE AND COLLABORATION

Meet at the Boggy Draw Trailhead. Take Dolores –Norwood Road (Rd 31) and turn East on Road W to find the trailhead. It is 3 miles from Dolores.

Purpose: ***Get on the ground to understand why and how to examine an area of forest, discuss what is 'healthy', and enjoy a working brownbag lunch of watershed related updates.***

12:00 Meet at Boggy Draw Trailhead

12:15 lunch and updates at Boggy Draw treatment unit (5 miles further up the Boggy Draw Road)

1:00 Forestry Stations: MSI, SJNF, CSFS, Industry will provide a brief overview of some reasons they are likely to examine a forest followed by demonstration an practice of a handful of forestry techniques.

25 min. each

MSI Approximating and measuring stand density, ground cover, and fuel loading

SJNF canopy cover, crown ratio, canopy class, tree form

CSFS DBH, tree height and crown base height, I&D

2:15 Group wrap-up discussion on forest health prescriptions to meet goals for a given piece of ground

2:45 Return to trailhead
