

DOLORES WATERSHED AND RESILIENT FOREST (DWARF) COLLABORATIVE

Wednesday, July 6, 2016, 1:30pm to 3:30pm

Dolores Water Conservancy District, 60 S. Cactus St., Cortez

Expected Outcomes:

- Raise awareness of DWaRF progress – Outreach (Dolores River Fest, Rico July 4th), Funding (CS deliverable, CAFA, Go Fund Me campaign);
- Understand fire model outputs to be used for treatment planning;
- Understand options and guide direction on post-fire modeling;
- Understand water system and supply security;
- Refine list of key attributes and identify monitoring opportunities on planned projects;
- Identify key participants for WWPG Watershed meeting in Fort Collins and the Ponderosa Pine Symposium in Vallecito.

AGENDA		
Topic	Process	Time
Updates	<ul style="list-style-type: none">• Funding Update• Recent happenings, workshops, etc.	25m 1:30 PM
Assessment Progress and direction for post-fire modeling	Present fire modeling and value layers, differentiate water quality v quantity, present post-fire opportunities, take suggested direction	35m 1:55 PM
Local Water Security	Ken Curtis – overview of water outtakes, treatment, and storage. Highlight special concerns.	30m 2:30 PM
Key Attributes	Present and Brainstorm pilot and monitoring opportunities, present key attributes brainstorm from tour, further develop list of attributes.	15m 3:00 PM
Next Steps	<ul style="list-style-type: none">• Facilities for biomass heating• Watershed Wildfire Protection Group• Ponderosa Pine Symposium• Risk-Assessment team?• CAFA/ Monitoring?	20m 3:10 PM
Adjourn		3:30 PM

UPDATES

- submitted CAFA grant for work on state and private lands within Lost Canyon drainage focus near Joe Moore Reservoir - \$250,000 toward treatment - FUNDED
