

UPPER DOLORES WATERSHED/ MCPHEE RESERVOIR PROTECTION INTEREST GROUP

Tuesday Sept. 22, 10:00 am to 1:00 pm

Dolores Water Conservancy District, 60 S. Cactus St., Cortez

Purpose:

Stakeholders for water and forest management understand current timber and fuels programs and industry in the Dolores Watershed and determine our short-term goals for working together.

Please read the notes from the meeting on July 30th to refresh your memory or bring you up to speed from the first meeting.

Expected Outcomes

- Participants understand Dolores District: current efforts and targets; proposed High Values Risk Analysis; HFRA opportunities (stewardship contracting, etc.); Spruce/Fir working group; ready, planned, and possible treatment areas for fuels mitigation; and process for getting work done on the ground.
- Understanding of timber industry perspective. How many board ft./ annually?
- Identification of what new participants bring to the table
- Identification of additional challenges or information gaps
- Participants agree on a list of short-term goals (targets) to get more work done on the ground together.

Agenda

Start-ups	Roles, Rules, intros	Becca, (FireWise SW CO) facilitator	10 min. 10:00 am
