

## **DOLORES WATERSHED AND RESILIENT FOREST (DWARF) COLLABORATIVE**

**Wednesday, September 7, 2016, 1:30pm to 3:30pm**

**Dolores Water Conservancy District, 60 S. Cactus St., Cortez**

### **Expected Outcomes:**

- Progress Updates – sharing of gofundme and workshops?, Risk Assessment trajectory, Hubbard visit
- Gather feedback and identify any next steps to enhance our Collaborative structure.
- Identification of some objectives and potential strategies for Goals 1&3:
  - Protect McPhee reservoir and other municipal water supplies by creating a resilient landscape in the Dolores River watershed. Improve and protect watershed health and functionality, lives and property, water-delivery systems, and other values at risk within the watershed.;
  - Enable active management projects in all forest types to reduce the potential extent of high-severity wildfires, promote forest health and appropriate age, size, and class diversity, and provide a myriad of additional ecological and economic benefits.;
- Next Steps for Coordinator, Teams, and Tour

| <b>AGENDA</b>  |   |             |
|--|---|-------------|
| <b>Topic</b>   | <b>Process</b>  | <b>Time</b> |
| Start-ups  | Introductions, agenda   | 10m 1:30    |
| Updates  | Round robin presentations, clarifications   | 20m 1:40 PM |
| Collaborative Structure  | Review current form, ID any next steps  | 15m 2:00 PM |
| Setting objectives for values protection and wildfire risk reduction | Clarify Goals to be addressed today, Brainstorm desirable outcomes that indicate success toward goals, identify strategies as they arise that accomplish objectives, clarify, check agreement | 60m 2:15 PM |
| Next Steps   | <ul style="list-style-type: none"><li>• Tour support</li><li>• Launching gofundme</li><li>• Ponderosa Pine Connection</li></ul>   | 15m 3:15 PM |
| Adjourn  |   | 3:30 PM     |
