We worked in two groups last month, planning and timber, and had a handful of outcomes. The planning group isn't going to be able to do a lot more until January, as the background mapping work that needs to be done with Shauna and Doug won't be able to fit into their schedules until mid-January. We did get a more complete list of professionals that should be engaged in that, though, and I believe we have Empire Electric on board as a participant and willing to share their utility line mapping data for planning purposes. The timber industry team has had another meeting since the November Stakeholders meeting and has two smaller team meetings on a market analysis and biomass energy set for Thursday. New participants included Ellen Roberts, two Dolores County Commissioners and the Dove Creek Town Manager.
